REPOSE

by GamFratesi 2021

REPOSE is a new series of opal glass lamps epitomized by GamFratesi's passion for craftsmanship, contrasts and refined aesthetic. Its strong sense of character is achieved by the poetic balance point of the thin line crossing the top of the organic shades. While exploring the contrasts between linearity and natural plasticity of glass, a clear silhouette of the REPOSE series arose. Designed to provide a calm atmosphere with its diffused light, graphic expression and soft shapes.

DIVAN 2

by Simon P. Henningsen ¹⁹⁶²

In 1962, Simon P. Henningsen unveiled a new pendant purposely designed for the Tivoli's famous restaurant, Divan 2. The rooms offered spectacular views over the garden lake and at night, the pendant's mirrored surfaces would catch the light from the famous fireworks and the lake. The success of the DIVAN 2 pendant went well beyond Copenhagen's beloved amusement park as LYFA started offering the lamp for the general public. DIVAN 2 was bestowed with several Danish and international design awards. In 1963, it was even exhibited at the Louvre in Paris.

PEANUT

by Bent Karlby ¹⁹⁴⁶

The PEANUT lamp was introduced in 1946 at a time when fluorescent lighting was gaining widespread popularity across society. But like many of his fellow contemporaries, Bent Karlby shared a strong distaste for this harsh and cold lighting. With its organic shapes and elegant brass detailing - completed with Karlby's hallmark peepholes - the PEANUT lamp became his solution for soft and pleasant room lighting that was equally appealing to look at. The curvy-shaped shade is crafted from mouth-blown opalized glass, complemented by an elegant brass top and bottom piece.

VERONA

by Sven Middelboe ¹⁹⁶⁸

A sophisticated 8-shade pendant that serves a soft, glare-free lighting with timeless grace and simplicity. When lit, the spherical pendant beautifully self-illuminates, making for a striking display in itself. When introduced in 1968, Sven Middelboe's VERONA series grew into the most popular design of his career. VERONA was the ultimate result of many years of experimentation with different shade constructions.

NINOTCHKA

by Bent Karlby ¹⁹⁵⁴

When giving shape to the NINOTCHKA pendant, Bent Karlby took note of an eye-catching hat, worn by the Swedish Hollywood star Greta Garbo in her 1939 film, Ninotchka. Art, fashion and popular culture have a long tradition of inspiring each other and this lamp is yet another great example. The pendant is a genuine and easily recognizable design icon. The organic body with its asymmetrical drapes ensures functional direct downlight and an ambient uplight.

MOSAIK

by Bent Karlby 1959

The MOSAIK collection is an ingenious lighting system based on a simple, geometrical design principle. At the heart of the system is the iconic conical lampshade and a connecting brass tube that allow for several surprising lamp designs. At the time of its release, MOSAIK was a bold and playful piece of lighting design intended for the modern home. And even today, Bent Karlby's uplifting collection remains as original and contemporary as ever.

PAN

by Bent Karlbj 1970

The PAN series is a beautiful example of Bent Karlbj's unique talent for capturing the zeitgeist of an area and turning it into designs that would come to transcend their inspiration. The monochrome surfaces of anodized aluminium transform the PAN series into contemporary design pieces for modern living. The iconic pendant is crafted from 12 polished aluminium pipes. While elegantly illuminating its exteriors through its open pipes, the pendant provides downlight and subtle ambient lighting through its open top.

GOTHIC

by Bent Karlbj 1970

GOTHIC is a distinctive wall lamp designed by Bent Karlbj in 1970. Quite surprisingly, only limited information still exists about the series, making GOTHIC an intriguing bit of Danish design mystery. The name was a reference by Karlbj to the gothic architectural style that flourished throughout Europe from the 12th to the 16th century, which was characterized by tall narrow structures with pointed arches. The open top allows for upward lighting that leaves a striking pattern on the wall. Through the narrow peepholes - one of Karlbj's hallmarks - a small stream of light flows out and onto the curved brass shades.

ALL PRICES ARE **RRP EX VAT**

ERGO

by Bent Karlbj 1971

True to its 1970s space-age heritage, the first ERGO lamps came in popping colours and were made entirely from plastic. While retaining its characteristic design language, ERGO has grown into a premium piece of lighting design. The plastic materials have now given way for a three-layered opal glass core and a coloured glass shade - bringing a soft ambient lighting to its surroundings while emitting subtle, pleasant downlight.

GOVERNOR

by Bent Karlbj 1956

GOVERNOR is a sophisticated mid-century lamp from 1956 that proved to carry an enduring appeal with design lovers around the world. This lamp radiates a certain international flair. It is confident and a premium piece of lighting design that still has the power to impress. GOVERNOR is crafted from solid brass and walnut wood, providing efficient downlight while giving a pleasantly diffused light from the reflective brass shade. When lit, the peepholes around the edge form a decorative light pattern.
